

RIM 3450: Proficiency no. 4

Part 1: Rhythm. Perform the rhythm below, counting it out loud as we do in class (e.g. saying “1 e & a, 2 e & a” as needed). **You must CONDUCT as you perform the rhythm** (DOWN on beat 1, IN on beat 2, OUT on beat 3, and UP on beat 4). The tempo is up to you, but you must perform with a click track or drum beat as you conduct.

Part 2: Song Reharmonization. Reharmonize the first verse, prechorus, and chorus for the song “Love Story” by Taylor Swift. You can record video of yourself playing along with the file posted to D2L on keyboard or guitar, OR you can import the file and sequence an arrangement.

You should use **at least one mixture chord** and **at least one seventh chord**. The original chords to the song, in D major and a meter of 4/4 at 119 BPM, are below. Along with your video or audio file, **upload a Nashville number chart that shows your reharmonization.**
